Desktop Appraisal Checklist

SIGMA offers desktop appraisals that value equipment without on-site inspection. Our team of appraisers will base their valuation on information that is provided by the customer. When requesting a desktop appraisal, please provide the following:

- Make
- Model
- Serial Number
- Age
- Description
- Hours
- Condition or Operational Status
- Capacity
- Pictures or virtual tour of key equipment

Once we have recieved all of the necessary information, our team team will begin the appraisal process and will provide you a report. If you have any specific questions or need to include more information, please contact us.
